

I am writing to express my concern over the proposal to allow LPFM stations priority over translator stations. I currently listen to K-Love radio in West Texas. This station serves this community by playing family friendly music and having family friendly public service announcements. K-Love is a good source of information for what is going on in our local community. They notify us of concerts, programming, etc that is family friendly. Many of the local stores play KLove on their PA system because they know that there will never be anything on K-Love that is obscene in content or implication.

If K-Love is replaced by an LPFM station, this community will be adversely affected. This station is a very important part of our community and it is a very important part of our lives. There are thousands of faithful listeners in this community. If you make this change, it will have a very strong negative affect on many local communities that receive K-Love via translator stations.

The service by K-Love is in the best interest of the public because the programming is positive and uplifting, the news is unbiased, and the employees of K-Love care enough about thier listeners to pray for them. It will definately not be in the best interest of the community if K-Love is taken off the air to be replaced by LPFM.

Thank you for your time,  
Marcy Dyer
